

Teach at ARCO IRIS bilingual school, a fulfilling and rewarding job

At ARCO IRIS bilingual school, children express their talents, develop their curiosity and take action, learn through play and particular *Eco-école* program.

Given the diversity in activities and international cultures of ARCO IRIS bilingual school, children open up to others, to differences and world wealth !

In an remarkable school environment, bright and warm, and while outdoor activities we organise often, children, aged 2 to 6, develop themselves at their own pace, in the classroom as well as in contact with nature.

At the end of the cycle, children continue their schooling, with the skills required to feel at ease in CP and in English

Thanks to adults who are committed, responsible, organized, creative, patient and caring on any occasion, both towards children and parents as colleagues.

You enjoy teaching to young children, and you feel at ease to discuss with their parents,

You are curious, open-minded and you like to teach through play, art, music, cooking activities and environmental protection

You want to help children learning experience, by collaborating actively with our teachers,

You like challenges and offer news opportunities to children,

Join us !
